Bashert Andrea Simon 2009-10-20 Haunted by her grandmother's Old World stories and bigger-than-life persona, Andrea Simon undertook a spiritual search for her lost family. Her sojourn, a quest for truth, gave her tragic answers. On a group tour of ancestral Jewish homeland sites that had been crushed in the Holocaust, she makes a riveting detour to her grandmother's village of Volchin, in what is now Belarus, where the last known family members had lived. There, she followed the trail of the death march taken by the village Jews to the place of their slaughter by Nazis and Nazi collaborators in the fall of 1942. During the same period, in Brona Gora, a forest between Brest and Minsk, some 50,000 Jews were shot. Simon was in one of the first American groups to visit this little-publicized site. Bashert, the Yiddish word for fate, guided her through the arduous quest. With newly translated archival records, she peeled back layers of clues to confront the mystery. This story of her momentous odyssey reveals the terrible fate of her kin. Mass shootings of Jews, particularly in the Soviet Union, have not been addressed with the same focus given to concentration-camp atrocities. Yet Simon's research reveals that Nazis killed nearly fifty percent of their Jewish victims by means other than gassing. In the historiography of the era, comparatively scant reference is made to the executions at Brona Gora. Thus Simon fills a significant gap in Holocaust history by providing the most extensive report yet given on the executions at Brona Gora and Volchin. As she interweaves tragic narrative

with evocative family anecdotes, Simon writes a story of life in czarist Russia and, within this frame, of her family's flight from pogroms and persecution. From a unique vantage Simon's memoir discloses her dogged genealogical search, the newly perceived Jewish history she uncovered, and the ramifications of the Holocaust in the postwar generation.

Sherlock Holmes and The Baron of Brede Place Daniel D. Victor 2015-07-21 They called her "Lady Stewart" when she was married to a British aristocrat. They called her "Miss Cora" when she ran a brothel in Florida. But she called herself "Mrs. Crane" when she asked Sherlock Holmes to locate her common-law husband, writer Stephen Crane, who'd gone missing in Cuba during the Spanish-American War. In their attempt to fulfil the lady's request, Holmes and Watson encounter a world of celebrity authors, terrorist bombings, and haunted manor houses. But it is only when Stephen Crane falls victim to a notorious blackmailer that the master detective and his partner find themselves face-to-face with cold-blooded murder. Under darkened skies, a solitary apparition stood brightly illuminated on the ship's gloomy deck. Or so it seemed. Cloaked in a long white raincoat-the same gleaming duster he'd worn in the face of Spanish gunfire at San Juan Heights-Stephen Crane looked for all the world like the ghost so many people thought he'd already become.

Encyclopedia of Life Writing Margaretta Jolly 2013-12-04 This is the first substantial reference work in English on the various forms that constitute "life writing." It includes entries on genres and subgenres, national and regional traditions from around the world, and important autobiographical writers, as well as articles on related areas such as oral history,

anthropology, testimonies, and the representation of life stories in non-verbal art forms. Pieces for the Left Hand J. Robert Lennon 2010-08-31 Finally available in the United States, a singular story collection that Time Out declared "unsettlingly brilliant" Astudent's suicide note is not what it seems. A high school football rivalry turns absurd—and deadly. A much-loved cat seems to have been a different animal all along. A pair of identical twins aren't identical at all—or even related. A man finds his own yellowed birth announcement inside a bureau bought at auction. Set in a small upstate New York town, told in a conversational style, Pieces for the Left Hand is a stream of a hundred anecdotes, none much longer than a page. At once funny, bizarre, familiar, and disturbing, these deceptively straightforward tales nevertheless shock and amaze through uncanny coincidence, tragic misunderstanding, strange occurrence, or sudden insight. Unposted letters, unexpected visitors, false memories—in J. Robert Lennon's vision of America, these are the things that decide our fate. Wry and deadpan, powerful and philosophical, these addictive little tales reveal the everyday world as a strange and eerie place.

The Beatles and the Historians Erin Torkelson Weber 2016-04-14 Hundreds of books have been written about The Beatles. Over the last half century, their story has been mythologized and de-mythologized and presented by biographers and journalists as history. Yet many of these works do not strictly qualify as history and the story of how the Beatles' mythology continues to be told has been largely ignored. This book

examines the band's historiography, exploring the four major narratives that have developed over time: The semi-whitewashed "Fab Four" account, the acrimonious breakup-era Lennon Remembers version, the biased "Shout!" narrative in the wake of John Lennon's murder, and the current Mark Lewisohn orthodoxy. Drawing on the most influential primary and secondary sources, Beatles history is analyzed using historical methods.

You can escape from a place...but not from your past. Mugure and Zack seem to have the picture-perfect family: a young, healthy son, a beautiful home in Riverdale, New York, and a bright future. But one night, as Mugure is rummaging through an old drawer, she comes across a piece of paper with a note scrawled on it--a note that calls into question everything she's ever believed about her husband... Mugure heads down a dangerous road that takes her back to Kenya, where new discoveries threaten to undo her idyllic life. She wonders if she ever really knew the man she married and begins to piece together the signs that were there since the beginning. Who was that suspicious man who trailed Zack and Mugure on their first date at a New York nightclub? What about the closing of the agency that facilitated the adoption of their son? Who made a threat against her husband's life? Soon, Zack must pay the price for his greed, and Mugure finds herself wielding a gun, fighting for her life. Inspired by true news stories of human trafficking and international adoptions, The Fall of Saints tackles real-life political and ethical issues through a striking, beautifully rendered story. A Life in Pieces Richard K. Baer 2008 In 1989 a woman named Karen showed up at author and psychiatrist Richard Baer's practice, terribly frightened and at breaking point. She explained that her husband beat her, her mother stole from her; she was in tremendous physical pain and wanted to die. Within a few sessions she also revealed that her father and grandfather had raped and tortured her repeatedly over the course of her childhood, frequently in the company of other neighbourhood men. She was now married with two children, but often could not account for stretches of minutes, hours, sometimes even days. As Karen's story unfolded over the following months, Baer realised that he was dealing with a severe case of Multiple Personality Disorder. Although it would take time and deep, hard-won trust before any of Karen's alternate personalities presented themselves in her psychiatrist's office, over the next five years Baer would encounter seventeen distinct personalities, all of whom had been living

inside Karen since she was a young child, shielding her from an otherwise unbearable life. In the tradition of Oliver Saks and Irvin Yalom, Baer chronicles his nine years of work with Karen and all her distinct personalities, his often futile efforts to use the tools of his trade, and his patient's ultimate invention of her own cure. An unforgettable story of unimaginable suffering and ultimate recovery, *A Life In Pieces: How One Woman's Personality was Shattered by Years of Abuse* is the first full account of life with Multiple Personality Disorder written by the treating psychiatrist.

Penelope and Prince Charming Jennifer Ashley 2016-08-26 Welcome to Nvengaria, a land where magic happens, shape-shifters are real, and fairy tales come true. England 1819 Wallflower Penelope Trask believes nothing will ever happen in her village of

Little Marching, Oxfordshire. Handsome princes only sweep in and carry off innocent maidens in the fairy tales she collects, never in real life. Prince Damien of Nvengaria is tired of living inside a fairy tale. His entire life has been ruled by prophecy, magic, and avoiding being assassinated by his mad father and the head of the Council of Dukes. When his father dies, he inherits a kingdom divided, his opposition led by Grand Duke Alexander, who will do anything to keep the monster's son from ruling Nvengaria. To make good his claim to the throne, Damien must fulfill a prophecy that reunites the lines of the original two princes of Nvengaria, best friends who'd carved a kingdom out of wild lands near the Transylvanian mountains. Damien's task—to bring back the Princess of Nvengaria, her line lost centuries ago. The price of disappointing the people, Alexander promises, will be Damien's execution. Damien tracks down the long-lost princess to the village of Little Marching in England, where nothing remotely interesting ever happens. He will have to convince the lovely Penelope that he is no charlatan, and that Damien's life and his kingdom depends on her facing danger with him. Along the way, the prophecy says, they will fall in love. And the prophecy is never wrong ... Note that the Nvengaria series is a paranormal historical, the books loosely based on well-known fairy tales: Penelope and Prince Charming—Cinderella The Mad, Bad Duke—Beauty and the Beast Highlander Ever After—Snow White and the Seven ... Highlanders The Longest Night—Little Red Riding Hood (and the Big, Bad Wolf) Life of Moscheles Charlotte Moscheles 2014-10-02 The 1873 English translation of a

biography of the renowned pianist, composer and friend of Mendelssohn, compiled by his wife.

Eight Survived Douglas A. Campbell 2011-10-18 On the night of August 13, 1944, the U.S. submarine Flier struck a mine in the Sulu Sea in the southern Philippines as it steamed along the surface. All but fifteen of the more than eighty-strong crew went down with the vessel. Of those left floating in the dark, eight survived by swimming for seventeen hours before washing ashore on an uninhabited island. The story of the Flier and its eight survivors is wholly unique in the annals of U.S. military history. Eight Survived tells the gripping story of the doomed submarine and its crew from its first patrol, during which it sank several enemy ships, to the explosion in the Sulu Sea. Drawing on interviews with the survivors and on a visit to the jungle where they washed ashore—where a cast of fascinating characters helped the U.S. sailors evade the Japanese—Douglas Campbell fully captures the combination of extraordinary courage and luck that marked one of the most heroic episodes of World War II.

A Southern Life Laurence G. Avery 2017-02-15 This exceptional collection provides new insight into the life of North Carolina writer and activist Paul Green (1894-1981), the first southern playwright to attract international acclaim for his socially conscious dramas. Green, who taught philosophy and drama at the University of North Carolina at Chapel Hill, won the Pulitzer Prize in 1927 for *In Abraham's Bosom*, an authentic drama of black life. Among his other Broadway productions were *Native Son* and *Johnny Johnson*. From the 1930s onward, Green created fifteen outdoor historical productions known as symphonic dramas, thereby inventing a distinctly American theater form. These include *The Lost Colony* (1937), which is still performed today. Laurence Avery has selected and annotated the 329 letters in this volume from over 9,000 existing

pieces. The letters, to such figures as Sherwood Anderson, Langston Hughes, Richard Wright, John Dos Passos, Zora Neale Hurston, and others interested in the arts and human rights in the South, are alive with the intellect, buoyant spirit, and sensitivity to the human condition that made Green such an inspiring force in the emerging New South. Avery's introduction and full bibliography of the playwright's works and first productions give readers a context for understanding Green's life and times.

Switching Time Richard Baer 2007-10-02 "[A]n absorbing journey through a psychiatrist's dauntingly challenging first case of multiple personality disorder--from the beginning of therapy to stable integration and recovery." -- Colin Ross, author of Multiple Personality Order and The Osiris Complex In 1989, Karen Overhill walks into psychiatrist Richard Baer's office seeking help for her depression and a persistent memory problem: she routinely loses parts of her day, finds herself in places she doesn't remember going to, and is told about conversations she doesn't remember having. While trying to discover the root cause of her memory loss, Baer works to gain Karen's trust, but it's years before he learns the true extent of the trauma buried in her past. What she eventually reveals is nearly beyond belief, a narrative of a childhood spent grappling with unimaginable horror. Then Baer receives an envelope in the mail. It's marked with Karen's return address but contains a letter from a little girl who writes that she's seven years old and lives inside of Karen. Soon Baer receives letters from others claiming to be parts of Karen. Under hypnosis, these alternate Karen personalities reveal themselves in shocking variety. One "alter" is a young boy filled with frightening aggression; another an adult male who considers himself Karen's protector; a third a sassy flirt who seeks dominance over the others. It's only by compartmentalizing her pain, guilt, and fear in this fashion that Karen has been able to function since childhood. Realizing that his patient represents an extreme case of

multiple personality disorder, Baer faces the daunting task of creating a therapy that will make Karen whole again. As powerful as *Sybil* or *The Three Faces of Eve*, *Switching Time* is the first complete account of such therapy to be told from the perspective of the treating physician, a stunningly devoted healer who worked selflessly for decades so that Karen could one day live as a single human being.

A History of Rwandan Identity and Trauma Randall Fegley 2016-03-18 Few societies have faced the difficulties of identity building experienced by Rwanda. This book's introduction reviews literature on the concepts of myth and trauma, and then introduces basic information on Rwanda and how it has been viewed by the outside world. Chapter One describes early Rwanda's political and cultural development, traditional narratives, group migrations, the effects of German and later Belgian colonialism, and the introduction of Christianity. It concludes with a look at how this early history has been interpreted and reinterpreted. The second chapter discusses the end of Tutsi dominance and the 1959 Hutu Revolution. It details Hutu Power ideology, Belgian domestic politics, early acts of genocide, refugee movements, and economic and political stagnation. The text documents the development of the Rwandan Patriotic Front, its 1990 invasion, and the Arusha peace process. An account of the 1994 genocide follows. However, as this has been covered in numerous other works, descriptions are limited to key events and general patterns. The chapter ends with a review of films, books, and other publications that brought Rwanda's plight to a worldwide audience, but that also created new myths. Chapter Three examines the country's post-genocide reconstruction and attempts to bring justice and reconciliation through the International Criminal Tribunal for Rwanda in Tanzania and gacaca courts domestically. Rwanda's impressive record of economic progress over the last two

decades is detailed. However, prospects for democracy have diminished, as its leaders have become increasingly sensitive to criticism and fearful of renewed divisions. Descriptions of the process of developing school curriculums to explain past atrocities, the new myths it created, and their possible consequences comprise most of Chapter Four. The final chapter offers conclusions on the effects of past mythologies and the trauma they have wrought. It draws comparisons with other divided societies and their approaches to dealing with the past. These include Burundi, Ethiopia, South Africa, the United States, Taiwan, Canada, Belgium, Switzerland, and Singapore. An extensive bibliography of books, theses, conference papers, official documents, articles, periodicals, journals, films, websites, other media, and interviews includes translations of titles in Kinyarwanda, French, Dutch, and German.
