Woven Together James S. Mastaler 2019-04-17 Now more than ever, it's critical that religious stories encompass a call to moral responsibility for the earth and to the global poor. But, the divorce between religious faith and science has left many people feeling unmoored and adrift at a time when we ought to be drawing closer to nature and each other. It is a theological activity to see the world as it really is--to look its suffering squarely in the face and tend to a wounded world. The global poor, especially women among them, are some of the world's most disenfranchised people. Their realities must inform the conversations about God and the world that people of faith are having in the church. There is no salvation from the world, only salvation with the world. This means learning to live as a member of a community of mutual responsibility--to look inward and ask ourselves how we might turn outward and live differently. Concern for nature and social justice must become a central part of Christian moral life.

Soft Power and the Worldwide Promotion of Chinese Language Learning Jeffrey Gil 2017-05-11 'The Confucius Institute Project' – consisting of Confucius Institutes and Classrooms, the posting of Chinese language teachers to overseas schools and universities and the Chinese Bridge language competition – represents an attempt by China to extend its influence globally through the use of soft power. Facilitated by a rapidly increasing demand for Chinese language learning, it has established a presence across the globe and made valuable contributions to the learning and teaching of Chinese. However, this has not necessarily led to an increasingly positive view of China, either at a political or a societal level. Through an analysis of official documents, interviews with those involved, a survey of Chinese-language learners and a study of academic and media sources, the author evaluates the aims of the project, and discusses whether these aims are being met.

The Art of Classic Planning Nir Haim Buras 2020-01-28 "An accomplished architect and urbanist goes back to the roots of what makes cities attractive and livable, demonstrating how we can restore function and beauty to our urban spaces for the long

term. Nearly everything we treasure in the world's most beautiful cities was built over a century ago. Cities like Prague, Paris, and Lisbon draw millions of visitors from around the world because of their exquisite architecture, walkable neighborhoods, and human scale. Yet a great deal of the knowledge and practice behind successful city planning has been abandoned over the last hundred years—not because of traffic, population growth, or other practical hurdles, but because of ill-considered theories emerging from Modernism and reactions to it. The errors of urban design over the last century are too great not to question. The solutions being offered today—sustainability, walkability, smart and green technologies—hint at what has been lost and what may be regained, but they remain piecemeal and superficial. In *The Art of Classic Planning*, architect and planner Nir Haim Buras documents and extends the time-tested and holistic practices that held sway before the reign of Modernism. With hundreds of full-color illustrations and photographs that will captivate architects, planners, administrators, and developers, *The Art of Classic Planning* restores and revitalizes the foundations of urban planning. Inspired by venerable cities like Kyoto, Vienna, and Venice, and by the great successes of L'Enfant's Washington, Haussmann's Paris, and Burnham's Chicago, Buras combines theory and a host of examples to arrive at clear guidelines for best practices in classic planning for today's world. *The Art of Classic Planning* celebrates the enduring principles of urban design and invites us to

return to building beautiful cities."

Spinglish Henry Beard 2015-06-02 Spinglish—the devious dialect of English used by professional spin doctors—is all around us. And the fact is, until you’ve mastered it, politicians and corporations (not to mention your colleagues and friends) will continue putting things over on you, and generally getting the better of you, every minute of every day—without your even knowing it. However, once you perfect the art of terminological inexactitude, you’ll be the one manipulating and one-upping everyone else! And here’s the beauty part: Henry Beard and Christopher Cerf, authors of the New York Times semi-bestseller *The Official Politically Correct Dictionary and Handbook*, have compiled this handy yet astonishingly comprehensive lexicon and translation guide—a fictionary, if you will—to help you do just that. If you want to succeed in business (or politics, sports, the arts, or life in general) without really lying, this is the book for you! (Your results may vary.) Spinglish includes these nifty bits of spurious verbiage and over a thousand more: aesthetic procedure – face-lift dairy nutrients – cow manure enhanced interrogation techniques – torture “For your convenience.” – “For our convenience.” hands-on mentoring – sexual relations with a junior employee incomplete success – failure rightsizing – firing people zero-tasking – doing nothing With each and every entry sourced from some of the greatest real-life language benders in the world today, you’re virtually guaranteed to have the perfectly chosen tried-and-untrue term right at the tip of your forked tongue. Wish you could

nimbly sidestep a question without batting an eye? Not sure how to apologize while also . . . not apologizing? Spinglish has you covered. Simply consult this convenient, shoot-from-the-lip glossary, and before you know it, you'll be telling it like it isn't, it wasn't, and it couldn't ever have been.

Why We Lost Daniel P. Bolger 2014 A three-star general offers an insider account of the U.S. wars in Iraq and Afghanistan, explaining how garbled intelligence, poor decision making, and no clear understanding of the enemy resulted in the failure of both missions.

Making Content Comprehensible for English Learners Jana Echevarria 2004 Like no other text on the market, "Making Content Comprehensible" presents an empirically validated model of sheltered instruction. This text contains the Sheltered Instruction Observation Protocol (SIOP) model, which provides school administrators, staff developers, teachers, teacher candidates, university faculty, and field experience supervisors with a tool for "observing and quantifying" a teacher's implementation of quality sheltered instruction. New to This Edition A new, additional chapter addresses the issue of English learners who are struggling readers and/or students with disabilities by including detailed information about learning disabilities and delayed development in reading (Ch. 10). Revised vignettes present teaching scenarios where three teachers teaching the same grade level and content attempt to include the focal SIOP indicators, with varying degrees of success. Complete lesson descriptors allow

readers to score the three teaching scenarios and help readers develop a degree of inter-rater reliability. New pedagogy! Each chapter contains: A graphic organizer that provides an overview of the chapter. "Background Sections" that include descriptions of the 8 sections and 30 indicators of the SIOP to help readers plan and prepare effective sheltered lessons. "Background Discussion Questions" appropriate for portfolio development in pre-service and graduate classes, for professional development workshops, or for reflection. The new, larger trim size facilitates using in the classroom the SIOP long and short versions and the lesson plan forms and rating vignettes. Includes both the full SIOP and an abbreviated version for the reader's use. Two different SIOP lesson plan formats that can be used for planning and preparation, depending on your needs. An Appendix contains the results of studies that demonstrate that English learners whose teachers used the SIOP model outperformed similar students whose teachers did not implement the model. "Making Content Comprehensible "is very practical and right on target for strategies in the field of ELLs." Professor Gerald McCain, "Southern Oregon University" "What clearly distinguishes Making Content Comprehensible "from others in the field is that it provides an easy-to-use, powerful, field-tested protocol for effective lesson planning, delivery and assessment." Professor Karen L. Newman, "Indiana University" "The strength of Making Content Comprehensible is the clear picture it provides of instruction and the teaching scenarios. The discussion of the teaching techniques and evaluation of each

of the three teachers provides invaluable examples for the student.”” Professor Judith B. O’Loughlin, "New Jersey City University" Author Bios: Dr. Jana Echevarria is Chair of the Department of Educational Psychology, Administration and Counseling at California State University, Long Beach. Formerly she was a professor of Special Education. Her professional experience includes elementary and secondary teaching in special education, ESL and bilingual programs. She has lived in Taiwan and Mexico where she taught ESL and second language acquisition courses at the university level, as well as in Spain where she conducted research on instructional programs for immigrant students. After receiving a Masters Degree in Bilingual Special Education from California State University, Long Beach, she received her Ph.D. from UCLA and was one of the recipients of the National Association for Bilingual Education's Outstanding Dissertations Competition. Her research and publications focus on effective instruction for language minority students, particularly those with learning disabilities. Mary Ellen Vogt is Professor and Director of Graduate Studies in Reading at California State University, Long Beach. Prior to her work at the university, she was a reading specialist at the school and district levels. Dr. Vogt is a past president of the California Reading Association, and served on the Board of Directors of the International Reading Association. She has authored chapters and articles in professional journals and texts, and has co-authored five books including: Portfolios in Teacher Education (1996; International Reading Association), Professional Portfolio Models (1998; Christopher-

Gordon), Creativity and Innovation in Content Area Teaching (2000; Christopher-Gordon), and Making Content Comprehensible for English Language Learners: The SIOP Model (2000; Allyn & Bacon). Dr. Vogt is also an author of two K-8 reading series published by Houghton Mifflin: Invitations to Literacy and a Legacy of Literacy. She has been inducted into the California Reading Hall of Fame, and in 1999 she received the Distinguished Faculty Teaching Award from her university. Deborah J. Short directs the Language Education and Academic Development division at the Center for Applied Linguistics in Washington, DC. She conducts school-based research on sheltered instruction and on effective programs for English language learners. She helped develop the national ESL standards. Her PhD specialization is bilingual/multicultural education.

Guide to U.S. Environmental Policy Sally K. Fairfax 2014-08-14 Guide to U.S.

Environmental Policy provides the analytical connections showing readers how issues and actions are translated into public policies and persistent institutions for resolving or managing environmental conflict in the U.S. The guide highlights a complex decision-making cycle that requires the cooperation of government, business, and an informed citizenry to achieve a comprehensive approach to environmental protection. The book's topical, operational, and relational essays address development of U.S. environmental policies, the federal agencies and public and private organizations that frame and administer environmental policies, and the challenges of balancing conservation and preservation against economic development, the ongoing debates related to turning environmental concerns into environmental management, and the role of the U.S. in international organizations that facilitate global environmental governance. Key Features: 30 essays by leading conservationists and scholars in the field investigate the fundamental political, social, and economic processes and forces driving policy decisions about the protection and future of the environment. Essential themes traced through the chapters include natural resource allocation and preservation, human health, rights of indigenous peoples, benefits of recycling, economic and other policy areas impacted by responses to green concerns, international cooperation, and immediate and long-term costs associated with environmental policy. The essays explore the impact made by key environmental policymakers, presidents, and politicians, as well as the topical issues that have influenced U.S. environmental public

policy from the colonial period to the present day. A summary of regulatory agencies for environmental policy, a selected bibliography, and a thorough index are included. This must-have reference for political science and public policy students who seek to understand the forces that U.S. environmental policy is suitable for academic, public, high school, government, and professional libraries.

IP Laws and Regimes in Major Asian Economies Kung-Chung Liu 2022-08-11 This book systematically studies the structural characteristics of IP laws and regimes of major Asian economies, including (but not always) China, Hong Kong, India, Indonesia, Japan, Korea, Malaysia, Singapore, Taiwan, and Thailand. It explores and crystallizes some worthy Asian models which could further help the development of international IP laws. This book begins with an overview of Asian modern history and IP laws. It discusses the three basic IP laws in Asia which are patent law, trademark law and copyright law. It looks at the pre-established damages for copyright infringement and trademark counterfeiting. The book also deals with problems with trade secret and its over-protection. It compares IP laws and four industries in India and China, and examines what role have IP laws played in the development in those industries and how India and China can learn from each other. Finally, it examines one medium and one small-sized Asian economy on its respective struggle (Taiwan's efforts to build a coherent IP exhaustion regime) and a success story (how Singapore has utilized IP to

secure its position in global value chains). This book is a useful reference for law students, scholars, practitioners, IP professionals who are interested in knowing Asia, Asian IP laws and industries, their struggles and finding ways to better global IP laws. The case studies could provide helpful lessons for other Asian economies and beyond.

Playing Dead Montana Miller 2012-12-15 As the Grim Reaper pulls a student out of class to be a "victim" of drunk driving in a program called "Every 15 Minutes," Montana Miller observes the ritual through a folklorist's lens. Playing Dead examines why hundreds of American schools and communities each year organize these mock tragedies without any national sponsorship or coordination. Often, the event is complete with a staged accident in the parking lot, a life-flight helicopter, and faux eulogies for the "dead" students read in school assemblies. Grounding her research in play theory, frame theory, and theory of folk drama, Miller investigates key aspects of this emergent tradition, paying particular attention to its unplanned elements—enabled by the performance's spontaneous nature and the participants' tendency to stray from

the intended frame. Miller examines such variations in terms of the program as a whole, analyzing its continued popularity and weighing its success as perceived by participants. Her fieldwork reveals a surprising aspect of Every 15 Minutes that typical studies of ritual do not include: It can be fun. *Playing Dead* is volume two of the series *Ritual, Festival, and Celebration*, edited by Jack Santino.

The Known Citizen Sarah E. Igo 2018-05-07 A Washington Post Book of the Year Winner of the Merle Curti Award Winner of the Jacques Barzun Prize Winner of the Ralph Waldo Emerson Award “A masterful study of privacy.” —Sue Halpern, New York Review of Books “Masterful (and timely)...[A] marathon trek from Victorian propriety to social media exhibitionism...Utterly original.” —Washington Post Every day, we make decisions about what to share and when, how much to expose and to whom. Securing the boundary between one’s private affairs and public identity has become an urgent task of modern life. How did privacy come to loom so large in public consciousness? Sarah Igo tracks the quest for privacy from the invention of the telegraph onward, revealing enduring debates over how Americans would—and should—be known. The Known Citizen is a penetrating historical investigation with powerful lessons for our own times, when corporations, government agencies, and data miners are tracking our every move. “A mighty effort to tell the story of modern America as a story of anxieties about privacy...Shows us that although we may feel that the threat to privacy today is unprecedented, every generation has felt that way since the introduction of the

postcard.” —Louis Menand, *New Yorker* “Engaging and wide-ranging...Igo’s analysis of state surveillance from the New Deal through Watergate is remarkably thorough and insightful.” —*The Nation*
